THE BAHAMAS

# THE BAHAMAS

**Destination Bahamas**, the Caribbean archipelago in the northwest West Indies

New Providence island, with Bahama's capital Nassau, lies about 310 km (190 mi) off the southern coast of Florida and north of Cuba. The coral-based archipelago consists of around 700 islands and islets and more than 2,000 cays (coral reefs). Just about 30 islands are inhabited. The Bahamas share maritime borders with Cuba, Haiti, the United States, and Turks and Caicos Islands (UK).

With a land area of 13,943 km<sup>2</sup>, the island chain is about the size of Montenegro, or slightly smaller than Connecticut.

The Bahamas has a population of just 397,000 people (2021 est.). Political capital and the commercial hub is Nassau. Spoken languages are English and Spanish. It was in the Bahamas where Columbus landed on San Salvador Island on October 12, 1492, when he got lost on his way to India.

After 325 years of "peaceful" British rule, the Bahamas became an independent country within the Commonwealth of Nations in 1973.

## THE BAHAMAS

Today, the Bahamas have become one of the world's foremost summer vacation resorts; the archipelago attracts more than five times its population in tourists each year.

Very popular with tourists are the large all-inclusive-adults-only resorts. Unlimited food, cocktails and more. Girls from many foreign countries offer their services.

Cruise ships, the islands are easily accessible by these Polluters of the Seas; they come from Miami, Fort Lauderdale and Port Canaveral near Orlando, Florida, many of those are registered in the Bahamas. The country has one of the world's largest open-registry shipping fleets.

Tourism, international banking (offshore finance), and investment management account for more than 55% of the country's gross domestic product. The Bahamas are widely popular as a tax haven since the 1990s.
