AUSTRALIA

Destination Australia, the "unknown southern land."

AUSTRALIA

Some say, with Australia, you get it all: a continent with its own tectonic plate, a country with a population density others can only dream of, and a massive island with a 30,000 km long beach.

Australia is situated entirely in the southern hemisphere, between the Indian and the Pacific Ocean, south of Maritime Southeast Asia and north of the Antarctic.

With an area of 7,617,930 km², Australia is almost (95%) as large as the continental USA (excluding Alaska). The sixth-largest country in the world has a population of just 25.7 million inhabitants (in 2021).

Australia shares maritime borders with East Timor, Indonesia, New Zealand, Papua New Guinea, the Solomon Islands, and the islands of New Caledonia (a special collectivity of France).

The country's capital city is Canberra; other major cities are Adelaide, Alice Springs, Brisbane (1.6 million) Darwin, Hobart, Melbourne (3.5 million), and Perth, the largest city is Sydney (4.2 million). The official language is English.
